

Redwood Apartment Neighborhoods

A Full-Service Developer
Reinventing the Apartment
Home throughout
Suburban America

Redwood® is an innovative property management company known for our signature single-story neighborhood design. Our two-bedroom, two-bathroom apartment homes offer residents the choice between a variety of floor plans, all including an attached two-car garage and personal patio.

We are proud of every neighborhood we develop, build, and manage. Redwood's quality site assessment, development, construction and asset management processes provide the foundation upon which our remarkable resident experience is built. And these quality practices wouldn't be possible without the trusted partnerships we have with vendors, contractors, and organizations like NAWIC.

Our Partnership with NAWIC

Redwood is a strong advocate for NAWIC and continues to show support through the hard work of members and leaders in both our company and our local NAWIC chapter. This strategic partnership has allowed Redwood to grow in the construction field, with the benefit of ongoing relationship building with vendors and contractors across the nation. As we grow, we look forward to continuing our partnership and seeking new vendor and contractor relationships with all trades.

***Kristine Fiorilli, Purchasing Coordinator
NAWIC Chapter 156 member, Vice President***

***Stephanie Zingaro, Purchasing Agent
NAWIC Chapter 156 member, Board of Directors***

***Becky Brady, Construction Accounting Coordinator
NAWIC Chapter 156 member, Treasurer***
